† Figures not available.

Explanation of symbols used :—B. = Births; B.R. = Birth Rate; C. = Cholera; S. = Smallpox; P. = Plague; F. = Fevers; D.D. = Dysentery and Diarrhoea; R.D. = Respiratory Diseases; M.D. = Maternal Deaths; D.R. = Death Rate; I.D. = Infantile Deaths (included in total deaths);

REMARKS

The figures of births and deaths shown in this statement for week ending the 5th November 1955 relate to 220 towns with an estimated population of 31,236 thousands. The total number of towns is 300 and their population is 38,988 thousands. Thus 73% of the total number of towns representing 80% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 24,904 and 7,896 representing birth and death rates of 41.5 and 13.1 per thousand of population respectively.

(a) States (Part A and C).—The data here relate to 188 towns with an estimated population of 27,453 thousands. Information about Ajmer, Assam and Madhya Pradesh could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 75% of the total number of towns representing 84% of the total population is covered. The

number of births and deaths recorded in these towns were 20,456 and 7,075 representing birth rates and death rates of 42.5 and 13.4 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) States (Part B).—The data here relate to 32 towns with an estimated population of 3,783 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 67% of the total number of towns representing 59% of the total population is covered. The number of births and deaths recorded in these towns were 2,448 and 821 representing birth and death rates of 33.6 and 11.3 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
